

MOM Helps Save the Ocean

Here's a scary thought: More oil ends up in the ocean from urban runoff than from tanker spills. This means you have a serious impact on the environment. Want to help? Don't change your oil in the driveway and hose it into the

46

street! And check out the hot new *MOM III* CD (short for Music for Our Mother Ocean) from the Surfrider Foundation and Surfdog Records. It features songs from Pearl Jam, Beck, Rancid, Brian Setzer, the Beastie Boys, and Snoop Dogg (a cover of the Ramones' "Rockaway Beach"). The MOM project has helped raise nearly \$500,000 for Surfrider. Pearl Jam has donated over \$50,000. For more information, go to www.surfrider.org. —Stephen Treffinger
